PROFESSIONAL SUMMARY

Software Developer with a degree in Systems Analysis and Development and experience building web applications, REST APIs, and database integrations. Skilled in Python, Flask, FastAPI, PostgreSQL, Vue.js, and Tailwind CSS. Seeking an opportunity as a Back-End Developer to contribute to efficient, secure, and well-structured software solutions.

PROFESSIONAL EXPERIENCE

Front-End Development Intern | Concentrix

📅 October 2022 – December 2022

📍 Fortaleza, Ceará, Brazil

- Developed and maintained responsive landing pages.
- Created and maintained user registration systems.
- Integrated web applications with MySQL databases.
- Implemented interfaces using HTML, CSS, and JavaScript.
- Identified and fixed issues while improving existing applications.

EDUCATION

Degree in Systems Analysis and Development | Estácio de Sá University

📅 Completed in 2026

📍 Fortaleza, Ceará, Brazil

Technical Diploma in Information Technology | EEEP Prof. Onélio Porto

📅 Completed in 2022

📍 Fortaleza, Ceará, Brazil

PROJECTS

SENGE Job Opportunities Platform | Python · Flet · PostgreSQL · JWT

- Developed a job posting and application management platform with candidate, employer, and administrator profiles.
- Implemented authentication, password recovery, search filters, reports, and audit logs.

Casa da Robótica | Vue.js · Flask · SQLite · JWT

- Developed a robotics e-commerce platform with a product catalog, search functionality, shopping cart, and user authentication.

- Created a database-integrated API to manage the application's data and operations.
-

Savelt | Angular · Java Spring

- Developed an information management application featuring a responsive interface and an architecture prepared for back-end integration.
